

Our Letters to Seniors Program (LTSP) has been a huge success! Since the inception of the program in the summer of 2020, we have had over 255 individuals submit messages for isolated seniors. We have distributed over 1500 kind letters/drawings to our partners in our community. Below is a sample of letters that we have received and forwarded along. We thank everyone who has submitted a kind message or has participated in the pen pal program. This program was funded by the Government of Canada, administered by the UWLM.
